

dtekt eSports returns to its origins

After a break of several months, we have been able to prepare our comeback with new ideas and new targets. By bringing an innovating vision and a wise positioning, dtekt eSports returns in Finland where everything started. In the upcoming months, we will bring tools to pep up this community and we will stay focused on this scene even though we don't discard the idea of entering another scene later.

To ingrain our attendance in the Counter Strike Source scene, we have decided to pick up a Finnish Counter Strike Source team composed of talented and experienced players who have played in teams such as Insignia cadre, Rakember and Afterlife. This team fits with our ambition perfectly and the following roster will represent dtekt eSports from now on:

Lauri	"Jonssen"	Niitamo
Jussi	"gstus"	Perälä
Micko	"WaRsLuT"	Hakala
Janne	"jannEz"	Toronen
Santtu	"MAUKKIS"	Puhakka
Mikael	"odiriz"	Karkinen (backup)

You will be able to see our new team at the upcoming eSports Heaven tournaments and Finnish LANs.
